VOTE ON PAPER – IT'S SAFER!

- **BEST**--Please vote in your precinct, on a PAPER ballot, on election day. Optical-scan paper ballots are durable and can be recounted, while touchscreen ballots may not. Plus, paper ballots can be hand counted if machines break down.
- **OK**--PAPER absentee ballot, hand-delivered to Chicago Board of Elections: <http://chicagoelections.com/en/absentee-voting-and-voting-by-mail.html>
- We **do not recommend** "early voting" with electronic touchscreen machines. Touchscreen machines ballots are flimsy "receipt" tapes, which can be smeared or mangled when printed. Touchscreen machines are notoriously hackable. See Jon Stewart's comments: <https://youtube.com/watch?v=qMQMePcKLbC>
- **PAPER**—If you cannot vote on election day and want a PAPER ballot—go to or call the Chicago Board of Elections and request an absentee paper ballot:
69 West Washington Street, Chicago, IL 60602
(312) 269-7984

Please call to ENSURE that your ballot was received!

Serve as a pollwatcher—view our pollwatcher toolkit here:

Serve as an election judge: We need honest, helpful citizens to get fully trained and to show up on election day. **Our democracy is worth it!**
